My first Haiku book

by Jared

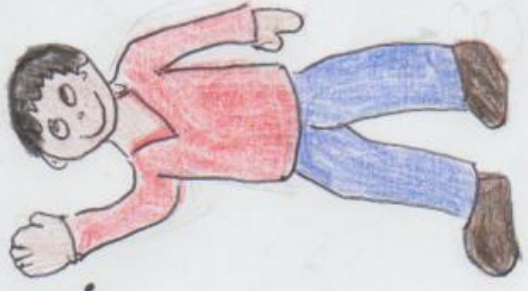

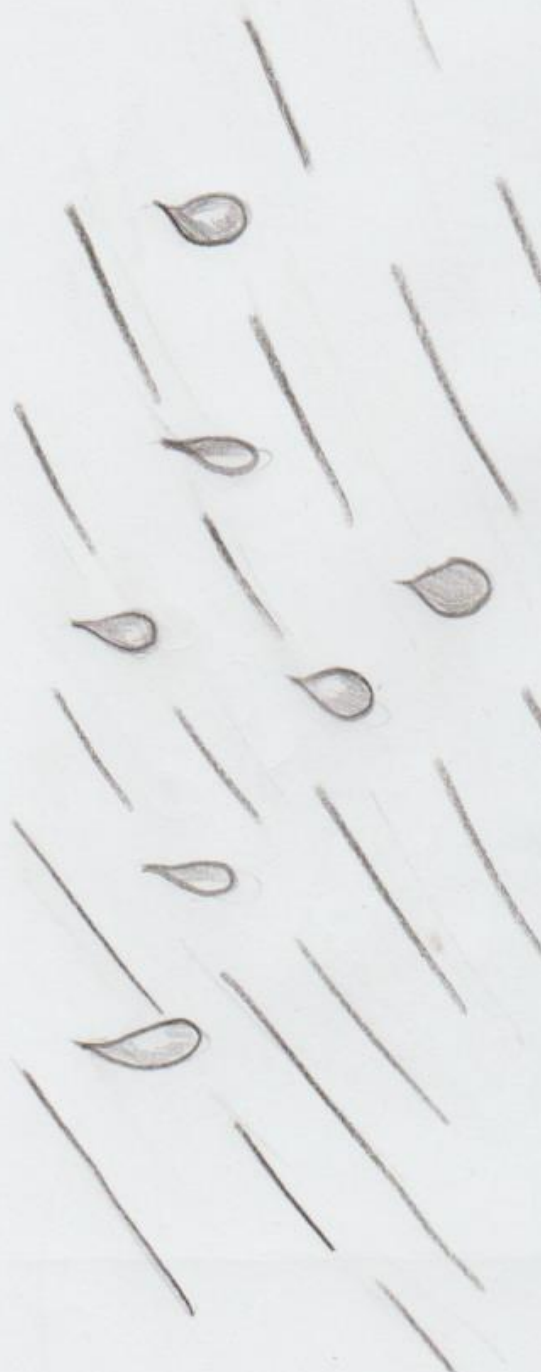

Hello, little cloud.

Will you be my friend today?

Follow me around.

1.

Rain! Splash! Sploshi! Slosli! Slash!

Don't come see us tomorrow!

Gulp, gulp, down the drain.

2.

Leaves fall from the trees.
I squash them under my feet.
"Ouch! We've turned to mud!"

3.

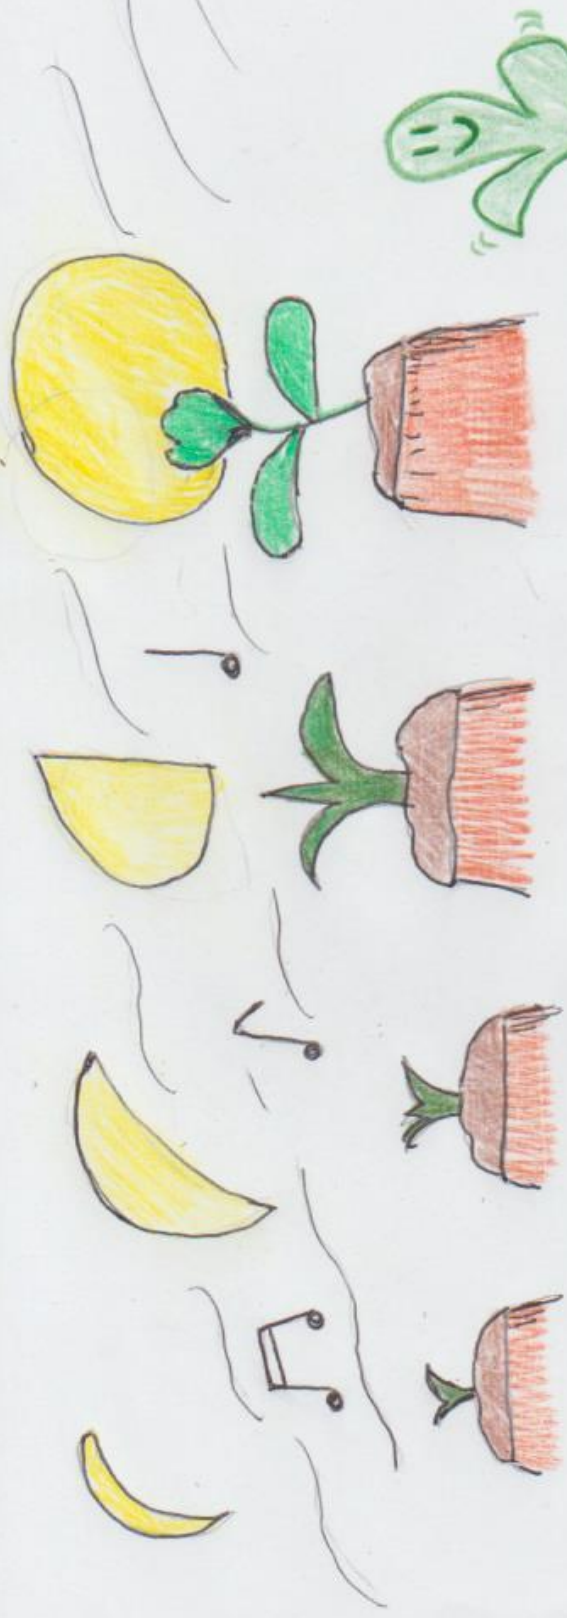

Hello, sun in my eyes.
Sun should be for everyone.

Hello, sun in my heart.

4.

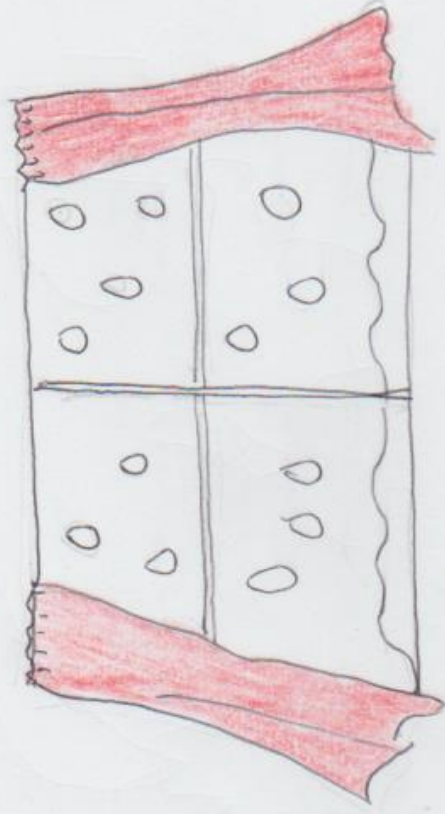

Night, baby sapling.
Sing to you in the morning.
You have grown all up!

Cloud looks down,
Opens his mouth,
And rain spills out.

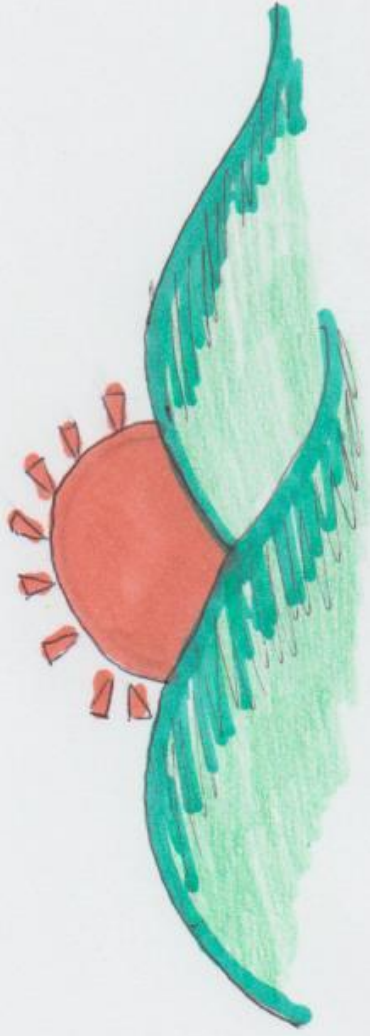

I open the curtains.

What a surprise!

Snow has sneaked into my garden.

The sun gets up early
hangs around all day
Then says goodbye.

The moon gets up late
Shines down on the sleepers
And goes back to bed.
